

The Argument for **PLASTER** is full of **HOLE**S

*Plaster models? Storage problems!
Store millions of Amfit Footfax
models on a disk – forever.*

*Plaster Accuracy? Hit or miss.
Amfit's Footfax is absolutely
precise – weight bearing or not.*

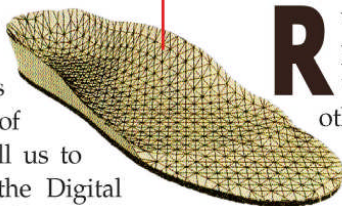

*Plaster is not repeatable!
Amfit's digital precision
gives true, repeatable
results doctors want.*

*Plaster efficiency? Messy and
time-consuming! Amfit's zero re-
do's can cut total time by 50%.*

*Plaster? Live with it, or do it over!
Amfit's Digital model (below) allows infinite, fast, precise modifications.*

Amfit's Digital Footfax™ has been clinically tested in busy labs worldwide, and has clearly proven to be the future of quality custom foot orthotics. Call us to find out how easy it is to put the Digital Footfax into your foot orthotic practice.

Run the numbers, you'll find it's a profitable long-term investment. That's why Ken Wasserman, C.O., C.Ped., and other professionals call the Amfit Digital Footfax system "a consistent and precise quantum leap" and the ultimate in quality control for custom foot orthotics.

AMFIT®

Where technology fits. Perfectly.
